

CARDIAC SYMPOSIUM SET FOR 24 AND 25 MARCH 2010

The annual Walter Sisulu Paediatric Cardiac Centre for Africa (WSPCCA) Cardiac Symposium will be held at Netcare Sunninghill Hospital, Johannesburg, on the 24 and 25 March 2010.

Invited speakers are Dr Richard Jonas (Children's National Medical Centre, Washington) Dr Christian Brizard (Melbourne Australia) and Dr Christian Schreiber (Munich Heart Centre Germany.) The symposium is based on cases of major teaching value as the WSPCCA has adopted a practice-based learning strategy and, as such, is expected to be an excellent event from a teaching and academic point of view.

The WSPCCA is committed to ensuring that African patients should be treated in Africa by Africans, and has a threefold mission: firstly, service delivery to African patients; secondly, the training of African surgeons; and thirdly, research in to congenital cardiac disease in Africa.

If you are interested in attending the Symposium please call Patsy on 011 257-2017.
